(FOR KEY SEE REVERSE)

25X1

1. The Budapest-Vienna road is being strengthened so that it can be used by vehicles up to sixty tons in weight. In September 1953 work was carried out on the stretch Dunaalmás-Tát (between Esztergom and Komarom). At the same time the inner dykes at the Danube were being strengthened.
2. The 4 - 6 small bridges along this stretch are being widened and strengthened. Most of the work is carried out in reinforced concrete.
3. The necessary cement is supplied by the Cement Factory in Lábatlan.
